### Page & Turnbull Architects New Projects

Page & Turnbull Architects is known as the foremost restoration and preservation architectural firm in California. Recent projects at the Presidio include the conversion of the Public Health Service Hospital to rental housing—The Presidio Landmark, and the rehabilitation of the historic Wyman Avenue homes.

In the past year they have done the Disney Museum, the new Exploratorium and a new museum in Sacramento.

Speaking on these projects will be **Lada Kocherovsky**, Associate Principal—a major architect of the Disney Museum.

**Sean Fine**, Associate AIA—job captain for the Disney project, Project Designer for the original San Ysidro Border Station, and lead designer of the Hunters Point Project feasibility study for the reuse for 3 buildings with 3 different programs.

**Jeremy Kahm**, Associate AIA—past projects include the Westin Alexandria and the Jamieson condominiums. Currently, he has been working on the Wyman Avenue homes.

Come join us for a fascinating program in the art of sustainable restoration and preservation of older landmarks.

We will meet at the McRae Showroom at 5:30pm and the program will begin at 6:00pm.

Refreshments will be served.
